Gurugram: In a move to support the environment and contribute towards sustainable future, Whiteland Corporation organized a tree plantation drive in Sector 76, Gurugram. The drive saw the planting of various trees, including Neem, Peepal, and Banyan etc which contribute to the environment in multiple ways.

CMD, Mr. Navdeep Sardana says “Through these Green drives, we want to take a proactive step towards preserving the environment and ensuring a greener future. We have officially signed a MoU with GMDA, for adoption of both side green belt and central verge from SPR road Police Post to T-point of Sector 77/76 as a first step towards a greener Gurugram. The aim is to plant more than 25,000 different varieties of trees, plants suiting seasonal climatic conditions and ensuring greenery throughout the year. This is just a beginning as we intend to undertake massive drives in coming months in all adjoining areas and cover a huge stretch in Gurugram.”

As a leading real estate development company, Whiteland Corporation is dedicated to creating high-quality developments that meet global standards with Indian values. Their recent projects, such as Urban Cubes 71 (SCO Commercial project, Blissville (Low Rise Luxury Floors), and The Aspen (Super Luxury High Rise Group Housing), are a testament to their commitment to creating distinguished landmarks. All the projects of the company have earned accolades from the market in a big way for their stupendous planning and Global outlook. The latest project, The Aspen located on Growth Corridor in Sector 76, Gurugram is already creating a huge buzz amongst luxury home buyers as it comes pre-loaded with extremely attractive features and offers world class amenities.

In line with their focus on sustainability, Whiteland Corporation prioritizes the impact of their assets on the environment and society. Their first project, Urban Cubes 71, has already been awarded IGBC Gold certification, and their Group Housing is also a pre-certified Gold Rated project by IGBC.
